

Commands

BattleArena Commands

This contains commands for the **/battlearena** (or **/ba**) command. These are not tied to a specific arena.

Command	Description
<code>/battlearena backups <player></code>	Shows backups that a player has saved.
<code>/battlearena backup <player></code>	Creates a manual backup of a player inventory.
<code>/battlearena debug</code>	Toggles debug mode.
<code>/battlearena module</code>	Lists all modules.
<code>/battlearena reload</code>	Reloads the plugin.
<code>/battlearena restore <player> <number></code>	Restores a backup for a player. Backup numbers can be found with the /battlearena backups <player> command.
<code>/battlearena schedule <arena> <duration></code>	Schedules an event to start at the specified time.
<code>/battlearena start <arena></code>	Starts an event manually
<code>/battlearena stop <arena></code>	Stops an event manually.
<code>/battlearena stopall</code>	Stops all events manually.

Arena Commands

These are commands that any Arena executor will have.

Command	Description
<code><arena> advance</code>	Advances the arena to the next phase.
<code><arena> create</code>	Creates a new map.

<code>/<arena> edit <map> <map option></code>	Edits an arena map.
<code>/<arena> join [map]</code>	Joins an arena.
<code>/<arena> list</code>	Lists all maps and competitions in them.
<code>/<arena> kick <player></code>	Kicks a player from the arena.
<code>/<arena> leave</code>	Leaves the arena.
<code>/<arena> team join <team></code>	Joins a team. Only works if team selection is set to pick in the arena's team-options.
<code>/<arena> team leave <team></code>	Joins a team. Only works if team selection is set to pick in the arena's team-options.
<code>/<arena> team list</code>	Lists all available teams.
<code>/<arena> remove <map></code>	Removes a map.
<code>/<arena> spectate [map]</code>	Spectates an arena.
